

Student Subject Selection

Easy to Follow Steps

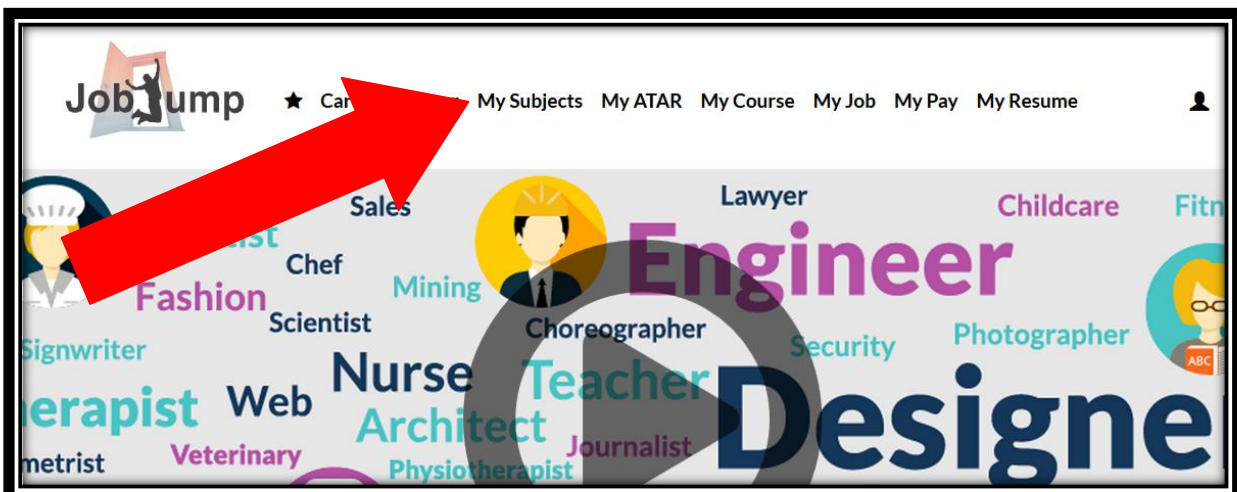

1. Make sure your students have registered.

The handy 2 minute video to follow is at the bottom right hand side on the home page at: www.jobjump.com.au

Once registered there will be a black head in the top right hand side.

2. Now select My Subjects.

3. Now show your students the slide show here. It will cover the main rules of the HSC and gives advice on how to best select subjects that suit your students.

Select your favourite career for subject advice for the HSC.

Below is a slideshow all about the HSC from UAC

5. What will appear in an orange box and in bold white type are the suggestions of the assumed knowledge or recommended HSC subjects. This will be useful as a starting point for your students to then talk to you, their parents, teachers and other senior students who have done these subjects.

6. For students considering University study, select My ATAR.

7. Now they enter the ATAR they hope to achieve.
8. Then they select the career field they wish to head towards.

9. They find a course that interests them and they click on the 6 digit blue course code on the left hand side.

I want to study in : NSW VIC QLD [Apply](#) Search:

Course Code	Course Name	Institution	Campus	State	Previous Cut-off
728028	B Sustainable Agriculture and Food Security	Western Sydney University	Hawkesbury	NSW	81.55
513950	B Science/B Advanced Studies (Food and Agribusiness)	University of Sydney	Camperdown/Darlington	NSW	80.00
