

*Pro Ali Design is a privately-owned company located on the Central Coast.
For over 30 years we have been designing and fabricating high-quality stainless-steel conveyors to
the Australian and international food industry.*

We are now seeking to employ two first-year apprentices in 2019 to undertake:
Certificate III in Fabrication – Sheet Metal Trade

As our apprentice you will receive the best in quality training to become a fully qualified metal trades person within the industry.

Duties within this role include, but are certainly not limited to:

- Cutting, bending and polishing stainless-steel and aluminium
- Learning to interpret technical drawings
- Welding
- Assisting tradesmen
- General workshop duties
- Onsite and offsite duties

Ideally you will have a strong work ethic and able to demonstrate your passion for working with metals.

These roles are full-time (allowing for TAFE days) working Monday to Friday 7.30am to 4pm with the opportunity for over-time when required.

If this role interests you and you want to seize this opportunity to start your career, please email your letter of application to **Lesley@proali.com.au** and tell us why you would be an ideal candidate.
