

“

***I felt pushed towards Law or Medicine... but the US liberal arts system offered me a further two years to explore.”***

**AUSTRALIAN STUDENT  
NATHAN H. UPENN, CLASS OF 2020**

### What are USA Colleges famous for?

US Colleges are famous for their broad and flexible liberal arts program, the campus lifestyle, powerful alumni networks, a culture of summer internships and their infectious campus spirit!

### How much will it cost?

US universities are expensive, but most of them offer financial aid which you don't have to pay back! Google the university name + net price calculator (eg. Harvard net price calculator) to find out more.

#### FUN FACT !

Total number of undergrads - 2017

Monash ..... **50,461**  
QUT ..... **37,792**  
USYD ..... **34,012**

Harvard ..... **9,915**  
Princeton .. **5,400**  
CalTech ... **961**

# STUDY IN THE USA

**Aim for the best universities in the world!**

### Opportunities Await in the USA!

World-leading career opportunities

Highest graduate salaries

Lucrative scholarships and financial aid

Incredible professors

Flexible liberal arts degree

Get involved in college life!

Live in hubs of innovation, politics, entrepreneurship and finance!

### How do I apply from Australia?

**01**

Take the US College standardised entrance exam (the SAT or ACT). You can take the exam in Year 10 or 11 and they want to see your ATAR or IB score too. This also applies to athletic scholarship candidates!

**02**

Have a unique extracurricular profile - think of how to make a positive impact in your school and community

**03**

Tell your story in a personal essay

**04**

Get a recommendation from your teachers

**05**

Have an interview with a university alumni

### Top three USA Colleges

by subject \*2019 QS World University Subject Rankings

#### **Arts & Humanities**

Economics, Law, Media etc.

Harvard, UC Berkeley, Stanford

#### **Engineering & Tech**

Computer Science, Engineering etc.

MIT, Stanford, UC Berkeley

#### **Life Sciences & Medicine**

Psychology, Medicine etc.

Harvard, MIT, Johns Hopkins

#### **Natural Sciences**

Environmental Sciences, Physics etc.

MIT, Stanford, Harvard

#### **Social Sciences & Management**

Economics, Law, Media etc.

Harvard, MIT, Stanford

“

**At Oxford, I'll be a few hours from anywhere in Europe and a major city like London has a more vibrant, corporate edge than what you get in Australia... it opens up a lot of opportunity.**

**AUSTRALIAN STUDENT  
JACK, UNIVERSITY OF OXFORD, CLASS OF 2021**

#### FUN FACT !

You can only apply to either Oxford or Cambridge due to their old time rivalry!

VS

# STUDY IN THE UK

**Aim for the best universities in the world!**

## What are UK Colleges famous for?

UK Universities are famous for their history, in-depth courses and research opportunities - perfect if you really know what you want to study!

## How much will it cost?

UK universities are almost never going to be cheaper than a local option. There are scholarships available for international students but unfortunately no sport scholarships.

## Opportunities Await in the UK!

Top career opportunities and world-leading research facilities

Unrivalled access to top professors at Oxford and Cambridge

Experience more than 900 years of university history!

Be on the doorstep of Europe!

## Want to study law or med?

Good news! You can study law and medicine at the undergraduate level, just like in Australia.

## How do I apply from Australia?

**01**

Focus on your high school exams! They'll look at this closely

**02**

Sit any required entrance exams (depending on what you want to study).

**03**

Describe your subject strengths in a personal essay

**04**

Get a recommendation from a teacher

**05**

Have an interview with a board of professors (especially for Oxford and Cambridge!)
