

Teaching opens doors

Become a teacher in a NSW public school and find out how a career in teaching can open doors for you.

Teaching is no ordinary job. It's a flexible career that can take you places, and gives you numerous choices. It can take you from the classroom to leadership and rewarding community roles.

Teaching supports you as you learn in and out of the classroom, and is a profession that offers wellbeing support and mentoring.

Why work for the NSW Department of Education?

Stella is a science teacher in a NSW public school

With nearly 100,000 employees working in schools and offices across the state, we can offer you a diverse and rewarding career. As a NSW public school teacher you will enjoy a wide range of professional benefits and career development opportunities.

Working with us gives you access to:

Community

The NSW Department of Education is the largest employer of teachers in the Southern Hemisphere, providing you with an expansive network and community. As a teacher in a NSW public school, you will have access to induction support and multiple networking opportunities both digitally and face-to-face.

Purpose

As a teacher, you have the ability to make a difference in the lives of students, families and the community. While many careers can make a difference to society, the personal impact that NSW Department of Education teachers can have on students is unique.

Workplace benefits

Access career enhancing programs and initiatives in addition to ongoing wellbeing support, attractive salaries and generous leave provisions. Teachers can also access additional benefits and incentives teaching in a rural or remote NSW public school.

Career growth

Throughout your career you will have the opportunity to apply for positions such as assistant principal or head teacher, where you can lead teaching and learning practices within a stage group or key learning area. There are also opportunities to progress to higher level school management positions such as deputy principal, principal and executive principal roles.
