Dear St. Edwards Collage

With a heart full of gratitude I want to take this chance to tell you on how my family and I are doing here in Kenya. And also to tell you how the school has been. Also to know how you and your families are doing there in Australia

We have just closed school for the end of term one. We did our exams which was a full exam meaning that every paper consisted of three papers. In school there were also outdoor activities such as athletics. I participated in running four hundred metres I was number five and in competition those who proceeded were number one, two and three. But the competition was enjoyable because it was part of physical exercise.

In this holiday I am planning to help my parents at any area that they will require my help. Am also going to go to the centre to do my assignment. And exchange knowledge with others.

In the next term it will be a term of ball games. I will be participating in football which is my favourite sport. And I hope that we will proceed to nationals.

Lastly I want to take this opportunity for helping my parents in paying my school fees. May God bless you so much.

Yours Faithfully
Fredrick Were.
